

Welcome!

Let's set up the online accounts and apps on your Android phone. This will enable your phone to report your vitals back to your health record at Mosaic.

Overview

Shown below is a quick summary of the steps you'll be taking to get your Android set up properly. Each step will be covered in detail in the following pages and will guide you through the process.

IMPORTANT: Complete the steps listed throughout this document in the order they are shown. Make sure you have completed each step before advancing to the next step in the process.

How the Entire System Works

Your Omron BP monitor sends your vitals/BP information to the Omron Connect app

The Omron Connect app relays your health data to the Google Fit app

The Google Fit app shares your data to your MyChart App

Your MyChart app transmits blood pressures to your chart at Mosaic

IMPORTANT: All permissions must be set in each app to allow this flow of data. You will need to go into each app and configure the settings.

LET'S GET STARTED!

Step 1: Set up your MyChart account and app

Step 1-A

Sign up for an online MyChart account:

Scan this QR code...

or visit
<https://bit.ly/MosaicMyChart>

Step 1-B

Download the MyChart app to your phone and set it up:

Scan this QR code...

or visit
<https://bit.ly/MyChartAndroidApp>

Step 2

Open and set up the Google Fit app on your Android:

Step 3

Download the Omron Connect app:

Scan this QR code...

or visit
<https://bit.ly/OmronConnectAndroidApp>

Step 4

Link your **OMRON BLOOD PRESSURE MONITOR** to the **OMRON CONNECT APP**.

Follow the steps in the Omron connection guide that came with your monitor. When finished, proceed on to step 5.

Step 5: Configure your Omron Connect app

Step 5-A

- Launch the Omron Connect app on your phone
- Click the **MORE** button; navigate to the app's **DASHBOARD**

Step 5-B

- Click the **PROFILE** button

Step 5-C

- Click the **APP SETTINGS** button

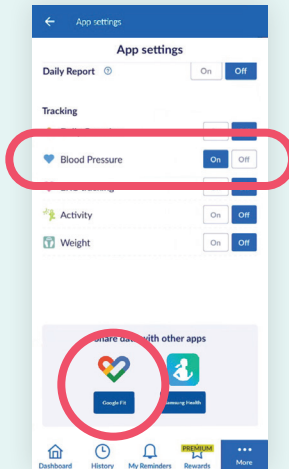

CONTINUE STEP 5

Step 5: Omron Connect app, continued

Step 5-D

- In APP SETTINGS, scroll down to TRACKING, make sure the **BLOOD PRESSURE** button is toggled to the **ON** position
- At the bottom of the screen, under SHARE DATA WITH OTHER APPS, click the **GOOGLE FIT** icon
- On the following screen, click the **LINK** button
- If a PERMISSIONS notification pops up, select **ALLOW**

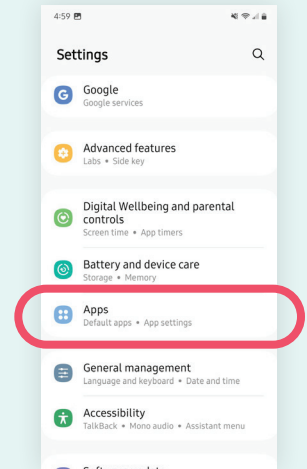

Step 5-E

- On your HOME screen click your **SETTINGS** app

Step 5-F

- On your **SETTINGS** screen click on **APPS**

Step 5-G

- On your **APPS** screen, scroll down and click on the **OMRON connect** app

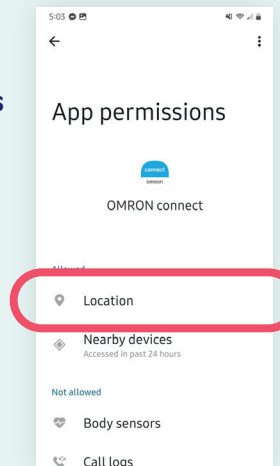

Step 5-H

- On your **APP INFO** screen, click on **PERMISSIONS**

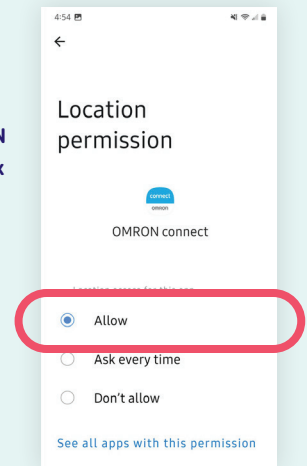

Step 5-I

- On the **APP PERMISSIONS** screen, click on **LOCATION**

Step 5-J

- On the **LOCATION PERMISSION** screen, click on **ALLOW**

Step 6: Configure MyChart app permissions for your Android

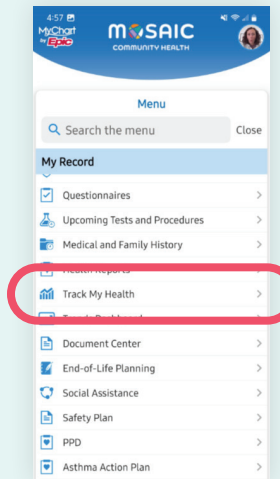

Step 6-A

- Open the MY CHART app
- Log in to your account and select **MENU**

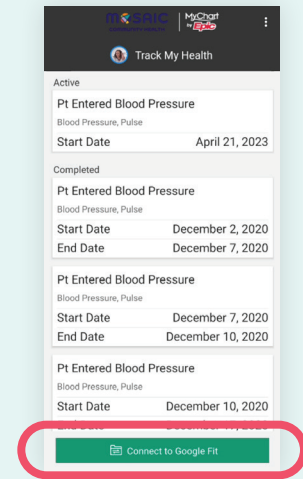

Step 6-B

- On the MENU screen, select **TRACK MY HEALTH**

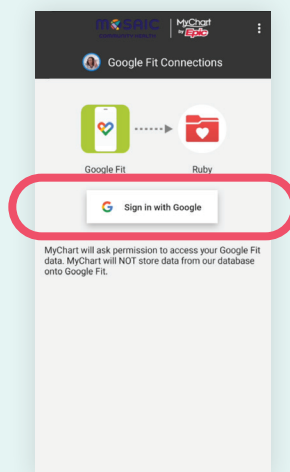

Step 6-C

- On the TRACK MY HEALTH screen, select **CONNECT TO GOOGLE FIT**

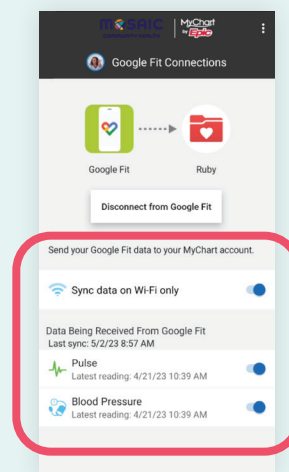

Step 6-D

- On the **GOOGLE FIT CONNECTIONS** screen, select **SIGN IN WITH GOOGLE**
- If a **PERMISSIONS** notification pops up, select **ALLOW**

YOU'RE FINISHED!

When your apps are synched correctly, your screen should look like this:

Support: Troubleshooting your Android

Note

It can take up to 2 hours for the data to display in the patient's Chart.

Issue

BP's are failing to show in MyChart but are showing in Omron and Google Fit.

Solution

Within the MyChart app, select **DISCONNECT FROM GOOGLE FIT** and then once disconnected, select **SIGN IN WITH GOOGLE** and follow prompts to reconnect Google Fit.
